PRELIMINARY AMENDMENT

Dear Sir,

Applicant submits the following preliminary amendments to the above-identified application.

Please amend this application as follows:

IN THE CLAIMS

Please add the following claims:

2. A wrench head member configured to use a socket wrench extension as a wrench handle, the socket wrench extension having a shaft section and a drive section extending from the shaft section, said wrench head member comprising:
- a wrench head having a drive member,
 - an extension collar, distinct from said drive member, extending from said wrench head, said extension collar having a hollow portion that includes a drive hollow portion configured for accepting and engaging the drive section of the socket wrench extension
